## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights in the Dominion of Manitoba, Saskatchewan, Alberta, the Yukon Territory, the Northwest Territories and British Columbia, may be leased for a term of twenty years at an annual rental of \$1 per acre. Not more than 500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-Agent of the district in which the land is situated. The land must be described by sections, or legal subdivisions of sections and be numbered for the tract applied for shall be marked out.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights are not available but not otherwise. A security deposit, to be paid on the successful completion of the lease of the rate of five cents per acre.

Every lease of coal mining rights which are not being operated shall be subject to the Agent or Sub-Agent of the district in which the land is situated.

The lease will include the coal mining rights only, but the lessee will be permitted to use the same whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. Cory,  
Deputy Minister of the Interior.

## SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any unoccupied section of Dominion Lands in Manitoba, Saskatchewan, Alberta, excepting 3 and 3A, not reserved, may be homesteaded by any individual or partnership of a family or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated. The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) That six months residence upon and cultivation of the land in each year of the three years.

(2) That the father (or the mother, if the father is deceased) who has been a resident of the Dominion of Canada for at least three years prior to the date of the application, and who is at least 21 years of age, shall be present on the land.

For further information application should be made to the Commissioner of Dominion Lands at Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. Cory,  
Deputy Minister of the Interior.

## A NEW MINE AT PASSBURG

LEITCH-COLLIERIES TO DEVELOP POLICE PLATE HEADERS.

## TUNNEL NOW STARTED

Will Open 5 Workable Seams of Excellent Coal-Tipple, Necessary Buildings and Spur Track Being Put in for New Property.

The Leitch Collieries has commenced the work of opening a new mine at Police Plate just to the east of its main workings, at Passburg. The property is what has been known as the Drury property which was purchased by General Manager W. L. Hamilton of the Leitch Collieries from J. C. Drury and later consolidated with the Leitch property when the Leitch Collieries was organized. It was the original intention to open the first mine on this property but being unable at that time to acquire the surface rights to the Police Plate, then a police reserve, and which was necessary for a working site, the opening of the property had to be postponed. Recently the necessary surface rights were acquired and it has accordingly been decided to begin operations.

The work has already been started and about 100 feet on a nine foot seam of coal. When the entry is in 500 feet a crosscutting tunnel will be driven both ways to open the adjoining seams. In all five seams will be tapped which will be worked from the one haulage way. The main seam to be opened lies to the west of the main entry and is a seam averaging about twelve feet of a splendid quality of coal. To the east of the entry lie three seams running from 3 1/2 to ten feet in thickness, all clean and carrying fine coal. All the seams run to at least 3000 feet of cover over the entry, making it one of the big properties of the district.

In addition to the work of starting the tunnel, the erection of a tipple is also under way while the necessary buildings, blacksmith shop, store building, stable etc. are in course of building. A large boarding house has already been built.

The mine will be connected with the C. P. R. by a spur track crossing Police Plate a distance of about a quarter of a mile from the C. P. R. to the mine. The survey for the line has been made and plans filed and it is expected the building of the spur will begin in a few days.

The opening of the new mine is of great importance to the Passburg community as it is regarded as one of the finest properties in the district and in opening it the company will be able to greatly increase its output in a very short time.

Already the effects of the new work are being felt in the vicinity of Passburg and numerous new buildings, residences etc. are going up. No less than five new houses of substantial character are being built at this time.

The company is making good progress with the main mine at Passburg. The output is gradually increasing and altogether the company's position is most favorable and satisfactory.

In opening the new property, J. Kerr, formerly in charge at Passburg goes to the new mine and is succeeded at the old works by F. H. Williams.

## NOTICE OF DISSOLUTION

Notice is hereby given that the partnership heretofore existing between Frank Manifold & Frank Demostrius carrying on business as General Merchants, at Blairmore, Alberta, under the name of Blairmore Grocery Store, was this day dissolved by mutual consent.

All debts owing to said partnership are to be paid to Frank Manifold and all claims against the partnership are to be presented to the said Frank Manifold by whom the same will be settled.

Dated at Blairmore, Alberta, this 23rd day of July, 1909.

Frank Manifold,  
Frank Demostrius.

## NEW CHURCH DEDICATED

The new Baptist church at Blairmore received its dedication Sunday when services were held morning, afternoon and evening. The Rev. C. C. McLaughlin, superintendent of missions for the province, was present and preached the dedicatory sermon in the morning, organized the Sunday school in the afternoon and preached again in the evening. The services were all largely attended and the launching of the edifice was most auspicious.

Monday evening a social and concert was held in aid of the building fund which proved highly successful both as an entertainment and financially.

The new church is the finest church edifice in The Pass. It has a seating capacity of 250 people and is a handsome little edifice. When opened Sunday it was completed in every detail and with the entertainment Monday evening, the financing was settled in a most satisfactory manner.

The building of the church has been a labor which in the manner of its completion, reflects great credit on the pastor in the future. The Rev. James Sergeant, beginning with the donation of one lot as a foundation, Mr. Sergeant conducted negotiations which culminated in the completion of a building costing \$2300 against which a mortgage of only \$1000 rests, the rest of the cost and all other cost incident to the undertaking being entirely cleared up.

At Sunday morning's services it was announced that \$350 had to be raised in order that the mortgage for \$1000 might be the only indebtedness. This meant that Mr. Sergeant had raised by subscription, \$700 in cash. The \$350 was raised by the collections Sunday morning and evening and the social and concert Monday. This cleared off every debt except the mortgage and that is placed with a number of the congregation, thus leaving the church in a very satisfactory financial position. Earnest congratulations have been showered upon Mr. Sergeant for the success of his efforts.

The building committee, the members of which rendered valuable assistance to Mr. Sergeant and are also entitled to much credit, was composed of J. W. Gresham, F. M. Pinkney, J. J. Thomas, F. Thompson and Alex. McLean.

The Baptist society feels deeply grateful to W. J. Budd, whose generosity made it possible to complete the raising of the needed \$350. When the collections of Sunday and Monday evening had been totaled up it was found there was still lacking \$232 to complete the fund and Mr. Budd promptly wrote out his check for the amount.

## COLEMAN DEFEATS BELLEVUE

The only games in the football league series played during the week were that between Coleman and Bellevue at Bellevue Saturday in which Coleman very much overcame the home team and won by a score of 3 to 1, and between Michel and Hooper, Michel winning 7-0.

Following is the standing of the teams to date:

Teams	Won	Lost	Draw	Points
Michel	9	1	1	19
Coal Creek	6	0	2	14
Fernie	3	2	5	11
Frank	3	2	2	8
Coleman	4	4	1	9
Hooper	2	6	1	5
Hooper	0	8	0	0

It should be noted that Michel and Bellevue are credited with a win each against Cooley which later withdrew from the league and for that reason, in the final reckoning, two points will likely be deducted from the total points of each team, in which case, Coal Creek with four games to play or Frank with five is as likely a contender for the championship as Michel.

Efforts are being made to arrange match games for the benefit of W. Fraser, the Coleman player who had a leg broken in a league game some time ago.

## FIRE TAKES WASH HOUSE

COAL COMPANY BUILDING DESTROYED YESTERDAY MORNING.

## CAUSE IS A MYSTERY

Fire Structure Valued at \$3000 a Complete Loss to the Company—Water Main Ruptured and Firemen Could do Nothing—Some Things Need Mending.

Fire originating from no body knows what cause, destroyed the fine new wash house of the Canadian-American company used by the men of the main mine, yesterday morning.

The fire occurred between shifts and therefore no one was about when it started and when discovered the building was all in flames. Alarms were sounded frantically by the whistles at the company's works and the yard engine, and the fire brigade turned out quickly but it was a long distance to haul the apparatus and as no one would give the flames a hand they were of little getting to the scene. When they did arrive they found there was no water as the intake of the water system had been clogged by the flood in Gold Creek and in consequence all that could be done was to stand and see the building burn down.

The building was one of the finest for the purpose in the whole district. It was built about two years ago and was a model for convenience and comfort. It had a cement floor, was provided with shower baths and steel cage lockers with accommodations for 250 men, was heated by steam and provided with hot and cold water. The destruction of the building entails a loss of about \$3000 on the company and will work a big inconvenience on the men until it can be replaced. The cause of the fire is a great mystery, as there was no fire in connection with or about the building.

The occurrence of the fire brought to attention several things that need remedying. The first was that whereas the alarms called out many people, hardly a one aside from the members of the fire brigade could be induced to lead a hand to haul the fire apparatus. The streets were lined with people to whom the firemen appealed for assistance to haul the reels, owing to the distance being so great, but they manifested a shameful lack of interest or common neighborliness by standing stolidly and watching the few patrols tug along with the reels.

Another was the need of steps being taken immediately to put a stop against another occurrence of the water system being blocked. Had the fire occurred in the business part of town the citizens would have been utterly helpless and would have been obliged to stand by and see the whole town burn.

Still another incident revealed a practice which should receive attention at the hands of the mine men and the company, that of men taking detonating caps into the wash house and leaving them in their clothes. While the fire was in progress there was the sound of a good sized battery in action from such caps exploding. The practice is one which might easily at any time lead to serious injury or much damage being done.

The men who had their skins clothes in the wash house lost them all and the clothes were kept busy yesterday morning supplying new outfits.

Actively on Beaver Creek.

Report from Beaver Creek is to the effect that the Beaver Creek Collieries of the Western Canada Coal and Oil Consolidated company is making excellent progress. Forty men are being worked under the supervision of Sam McLean, formerly mine manager for the Canadian-American company and the slope being sunk is making rapid headway. The company is also making a new survey of its proposed railroad which is to connect with the C. P. R. at the site of the old Pitcher station. The new survey will considerably shorten the route of the road.

### BETTER FISH REGULATIONS.

Better fish regulations are needed in Alberta. Of that there is increase in the number of fish caught and it is simply to observe that the government should not only give the subject of fish attention in the way of providing better protection of game fish, but should take steps to restrict the splendid trout streams of this section if the trout is not to disappear from the mountain streams altogether.

As to better regulations for the protection of trout, any new regulations that may be provided should be of a sort that will regulate. It is true we have a law now called the Trout Act, but it is as good as null, the trout are getting no protection and streams that have been the best in the country are becoming so depleted it has become necessary to go many miles into the mountains and then to Paris so inaccessible that few go there before a decent catch can be made. Old timers will recall that no better trout fishing was to be found anywhere than in the middle fork of the Old Man when this district was opened, or rather when settlement commenced after the advent of the railroad. That was but a few years back, no more than seven years yet he is a fortunate angler indeed who can land a trout from the middle fork now. And the south fork of the same stream furnishes another gratifying illustration. Up to and including last year, the south fork of the Old Man offered grand fishing but this year the fish are not only woefully scarce but are all very small.

These streams have become depleted simply through abuse. They have not been fished any and all times but by every method conceivable with the inevitable result that both have been ruined as fishing streams. There has been on the statute books for some years, a law prohibiting the taking of fish below a certain size but no attention is paid to it; everything that happens to strike in the form of trout is fish to the average fisherman. Some have been known to take as high as 200 fish, no one of which but was smaller than the prescribed limit.

Undoubtedly regulations that would regulate should be made AND ENFORCED.

As the subject of restocking, undoubtedly provision therefore should be made and at once. There is no fish and game association in this part of the province to agitate the question but if every person interested would write a letter to the headquarters of the Alberta Fish and Game Protection society at Calgary urging such steps and another to the government it would serve to attract attention and get the movement going.

Announcement has been made that the efforts put forth through the associated boards of trade to secure better freight rates on Alberta coal are about to bear fruit and that a reduction has been promised. It is arguably to be hoped that the announcement is not premature. Certainly nothing would redound to the benefit of the coal producing districts of Alberta in larger measure. The coal industry has suffered since its inception by the heavy freight tariff on the product of the mines. Individual efforts on the part of officers of coal companies have been made for years in the effort to get the coal of southwestern Alberta into Winnipeg at a freight rate that would permit it to enter into competition with American soft coal. If that could be done it would really broaden the markets and secure all the business opportunities for its product. It may be hoped that any steps now taken will be thorough and that any new rates set into effect will be such as will afford the needed relief. At the same time it should be seen to that

the mines of no one section be favored over those of others. It is a question the local boards of trade should get in touch with to insure that the interests of the mines of the Pass be safeguarded.

### Church Services.

METHODIST CHURCH—Pastor Rev. T. D. Jones. Frank Sunday school at 2 p. m., services at 7:30 p. m. Bellevue Sunday school at 2 p. m., service at 3 p. m. and 7:30. Hillcrest Sunday school and service 10:30 a. m.

Every department is receiving careful attention and we ask your hearty co-operation. Every one made welcome.

BAPTIST CHURCH—Rev. J. Sergeant. Blainville, preaching service, 11 a. m. and 7 p. m. Sunday school and Bible class at 3 p. m. prayer meeting on Tuesdays at 8 p. m. Frank, preaching service at 3 p. m. Bible class and Sunday school at 2 p. m. Hillcrest, preaching service Sunday evening at 7 p. m. in the school hall.

### THE LIQUOR LICENSE ORDINANCE.

Application For Transfer Hotel License.

Application has been made by Joe A. McNeill and W. H. Murr for consent to the transfer to themselves of the license granted to Albert Munn in respect of the Coleman Hotel, situated on lots 1, 2 and 3, Block 1, Coleman, Alberta. If necessary this application will be considered by the Board of License Commissioners at a meeting to be held at Pioneer Creek on Monday August 20th 1906 at 10 o'clock p. m. Dated at Edmonton this 20th day of July 1906. Deputy Attorney General.

### NOTICE

Notice is hereby given that an application on behalf of the West Canadian Collieries Limited, will be made to the Board of Railway Commissioners for Canada at the Board's office at the city of Ottawa, on the 26 day of August 1906, at twelve o'clock noon, for an order under section 361 of the railway act, recommending to the Governor in Council the sanctioning of an agreement for the sale and transfer of the franchises, rights, powers, railway and undertakings, etc. of the United Coal Fields of British Columbia Limited, to the West Canadian Collieries Limited. Dated at Montreal, this 7th day of July 1906.

Belque, Turgeon & Belque. Solicitors for the West Canadian Collieries Ltd.

## CORBIN SAYS WILL BUILD

Official announcement is made by D. C. Corbin of Spokane, president of the Spokane International railroad company, over whose line the Canadian Pacific railway has entrance to Spokane from British Columbia, that he will build a line of 46 miles into the coal, oil and mineral district of southwest Kootenay extending from the town of Corbin, in East Kootenay, through the Flathead valley to the international boundary.

The new line will furnish an outlet to the south from the mines owned by Mr. Corbin and the mines of this district.

Mr. Corbin completed a line from the station Gillivray, on the Crow's Nest pass branch of the Canadian Pacific to Corbin 15 miles. This road is known as the Eastern and British Columbia railway and the road down the Flathead river to the Montana border will be an extension of that line. While Mr. Corbin's plans in that regard have not been made public, it is expected connections will be made with a transcontinental line in Montana, doubtless the Milwaukee.

Surveyors for the Chicago, Milwaukee and Puget Sound and Great Northern railway companies have recently been in the southeast Kootenay district. They are planning to build branch lines to the coal fields. There was also a rumor that the Milwaukee company had acquired from Mr. Corbin a franchise granted to him by the government of British Columbia to build his railroad through the district. The sale price announced was \$3,000,000. When asked concerning the report, Mr. Corbin said: "The report is erroneous in two particulars: First, I have not sold my franchise, and second I have not received an offer of \$3,000,000 for it. I might add that I have not been approached by the Milwaukee people in reference to a sale of it. I obtained the franchise for the purpose of building the railroad through the district to the international boundary and I am going to do so."

## Frank News in Brief

Mrs. George Pattinson expects to leave in September for a visit to her former home in England.

M. A. Schumaker of Walkerton, Ont., visited with Eugene Schurr the last of the week.

The Frank mine is closed a couple of days pending repairs to the water system, there being no water available for the boilers of the power plant.

C. Hood, general fuel agent of the C. P. R. with headquarters at Winnipeg and J. F. Kane, assistant fuel agent with headquarters at Calgary, are visiting Frank today.

The Hillcrest mine resumed operations last week, the men having decided to accept the finding of Chairman Grant in the arbitration of the pillar controversy. The mine is running full blast and everything appears lovely.

Engineer Wilcox of the coal company is leaving the Canadian-American and takes his departure this evening for Bankhead where he will join the forces of S. M. Moore of the Pacific Coal company, formerly manager here. The family will follow later.

The Spokane International railroad has recently installed a commercial telegraph service along its line. Therefore it had been with great difficulty and inconvenience that telegraphic messages could be exchanged with points on the line. The new service will be a marked convenience.

Wm. Northam, chairman of the school board at Albion Ridge, near Lethbridge, and Mrs. E. B. Palmer, teacher there, were married at Knox church, Frank last evening. It is said Mrs. Palmer declined another term of school but the people there were bound she should not leave the community so the chairman of the board determined upon heroic measures to prevent the calamity. The happy couple left this morning for the Seattle fair.

An Edmonton dispatch states that the announcement that the contract between the federal and provincial governments for the retention of the mounted police has been re-enacted, is premature. Attorney General Cross states that the contract has not yet been closed for the reason the federal government wants more money from the province for the maintenance of the force which the local government thinks is unreasonable.

The rains of the first of the week raised the streams almost to flood height but barring the clogging of the intake of the water system in Gold Creek which caused much inconvenience no damage was done.

A party of Plincher Creek people spent Wednesday seeing the sights of Frank. In the party were Mr. and Mrs. Agnew, Mr. and Mrs. W. R. Dobble, the Misses E. Dobble, J. McCrae, Breckenridge, Golden and John Sargent.

F. Colomer, consulting engineer for the Canadian-American company arrived in Frank from Paris Monday and in the guest of General Manager and Mrs. Muller. Mr. Colomer will spend some time here inspecting the company workings and plant and conferring with General Manager Muller on plans for the future.

A young man from the country who for obvious reasons shall be nameless celebrated in Frank Saturday night and Sunday to such effect that when he started home, he got tied over in the slide and got off his horse and laid down to snooze. Later he found the horse but the saddle was gone. It was recovered by the police at Coleman.

F. W. Doubt, weed inspector under the provincial government, visited The Pass Monday and Tuesday. Mr. Doubt states the district is much freer from noxious weeds this year than last. This he attributes in large measure to the fact that the railroad grades, usually a fruitful source for the spread of such weeds, have, since government inspection commenced, been kept well cleared of their presence.

Unusually heavy rains for this time of the season, set in Monday night and continued for fully forty-eight hours. Fortunately baying had but just started and no amount of damage has been done while a vast amount of good will result as the country has been thoroughly watered and late crops will all mature. It should now be a great harvest.

General Manager Muller of the coal company and Mrs. Muller had as guests Saturday, three distinguished citizens of France, Count de Bailecourt, Count de Villotte and Count de Ferrand, all large stockholders in the Canadian-American company. Count Bailecourt spent some time in Frank in 1906, the year before the slide and was amazed at the changed appearance of the place. All were much pleased with the condition of the affairs of the company.

Some one let the brakes off a string of railroad cars at Hillcrest one day this week with the result that they ran down the grade. One jumped the track and another was considerably smashed up.

J. H. Farmer of the Union bank was painfully injured Friday last by being "piled" by a new saddle mare he had just acquired and which bucked at a very unexpected and inopportune moment. Mr. Farmer was thrown on his head and sustained a severely lacerated scalp and numerous very painful contusions.

Joseph Grebler of Toronto has taken a position in A. V. Lang's store.

Dr. and Mrs. C. A. Porteous of Montreal and Miss Martin are visiting Mr. and Mrs. T. B. Martin.

Geo. E. Mossey, representing the new Milwaukee trans continental railroad in the states, was a visitor to Frank Tuesday.

The annual railroaders excursion to Crows Nest was run last Thursday when a special train carried a big number of picnics to the mountain resort. A fine time is reported.

J. H. Schofield and wife of Plincher Creek visited Frank the last of the week.

T. M. Burnett of Bellevue left for Seattle to visit the exposition, Sunday. Eugene Schurr will have charge of the Bellevue store in the absence of Mr. Barnett.

The heavy rain of the first of the week was the cause of a big rock rolling down on the mine track near the entrance of the mine Monday night. The rock was of such size that it was necessary to blow it up with giant powder to remove it.

Wm. Powell, president of the U.M. W. A. has gone to Nicola to endeavor to settle the coal strike in that district.

The police have this week been engaged in endeavoring to trace the past record of Mike Kulezycki who killed Angus Rains in a fight Saturday of last week. It had been reported that Kulezycki had had a knife record at Edmonton but thus far in prying into his life for the ten years he has spent in different parts of Alberta and British Columbia nothing of a damaging character has been unearthed.
